# Defining Issues Test (DIT) – Heinz and the Drug scenario

The purpose of this section is to help us understand how people think about social problems. Different people have different opinions about questions of right and wrong. There are no "right" answers to such problems in the way that math problems have right answers.

Please read the following scenario and then answer the questions that follow.

In Europe a woman was near death from a special kind of cancer. There was one drug that doctors thought might save her. It was a form of radium that a druggist in the same town had recently discovered. The drug was expensive to make, but the druggist was charging ten times what the drug cost to make. He paid \$200 for the radium and charged \$2,000 for a small dose of the drug. The sick woman's husband, Heinz, went to everyone he knew to borrow the money, but he could only get together about \$1,000, which is half of what it cost. He told the druggist that his wife was dying, and asked him to sell it cheaper or let him pay later. But the druggist said, "No, I discovered the drug and I'm going to make money from it." So Heinz got desperate and began to think about breaking into the man's store to steal the drug for his wife.

## DIT0. Should Heinz steal the drug?

- -1. Refused
- 1. Yes, he should steal the drug
- 2. I can't decide
- 3. No, he should not steal the drug

Second, read each of the items below and think of the issue that the item is raising. Then mark how important that issue was in making your decision about Heinz and the drug.

DIT1. Whether a community's laws are going to be upheld.

DIT2. Isn't it only natural for a loving husband to care so much for his wife that he'd steal?

DIT3. Is Heinz willing to risk getting shot as a burglar or going to jail for the chance that stealing the drug might help?

DIT4. Whether Heinz is a professional wrestler, or has considerable influence with professional wrestlers.

DIT5. Whether Heinz is stealing for himself or doing this solely to help someone else.

DIT6. Whether the druggist's rights to his invention have to be respected.

DIT7. Whether the essence of living is more encompassing than the termination of dying, socially and individually.

DIT8. What values are going to be the basis for governing how people act towards each other.

DIT9. Whether the druggist is going to be allowed to hide behind at worthless law which only protects the right anyhow.

DIT10. Whether the law in this case is getting in the way of the most basic claim of any member of society.

DIT11. Whether the druggist deserves to be robbed for being so greedy and cruel.

DIT12. Would stealing in such a case bring about more total good for the whole society or not.

- -1. Refused
- 1. Not important
- 2. Little importance
- 3. Some importance
- 4. Much importance
- 5. Great importance

Now, choose the item that is the <u>most</u> important consideration out of all the items you rated above. Then choose the second most important, third most important, and fourth most important.

# **Moralization of Everyday Life Scale (MELS)**

Many people are used to thinking about morality as it relates to a few controversial public-policy issues: abortion, gay marriage, gun control, the death penalty, etc. This survey is instead about the things that people do in their own daily lives. Below you'll be presented with a variety of situations and be asked to say whether certain behaviors in those situations would be morally wrong. Please use the following scale from 1 to 7, to indicate the degree to which you judge the behavior to be wrong (if at all).

# 1 = Not at all wrong; has nothing to do with morality. 7 = Very wrong; an extremely immoral action

- MELS1. Lying about a test score when reporting performance to a teacher.
- MELS2. Faking an injury to collect on insurance.
- MELS3. Parking in a handicapped parking spot when not handicapped.
- MELS4. Using someone else's toothbrush without his or her permission.
- MELS5. Packing for a trip at the last minute.
- MELS6. Choosing to wake up late, despite having a busy day ahead.
- MELS7. Ignoring a woman struggling to carry bags of groceries.
- MELS8. Ignoring a driver whose care is stuck in the snow.
- MELS9. An 18-year-old girl breaking an abstinence vow to have premarital sex.
- MELS10. Drinking 10 beers at a party and vomiting several times.
- MELS11. Defecating, not washing one's hands, and then preparing dinner for oneself.

#### **Moral Dilemma - Trollev**

[ROTATE RESPONDENTS TO SEE ONE OF THE TWO VERSIONS; RECORD VERSION SEEN IN DOV VERSION]

## Dov version.

- 1. Version 1
- 2. Version 2

In this task you will be presented a moral dilemma.

When the dilemma appears on the screen read through it silently and carefully. After you have finished reading it, your job is to judge whether the course of action in the dilemma is appropriate or inappropriate.

There are no "right" or "wrong" answers to this problem. You will not, in any case, be asked to justify your response. Do not worry about whether the action is legal or illegal. Simply respond in whatever manner you believe to be morally correct.

#### Version 1

A runaway trolley is heading down the tracks toward five workmen who will be killed if the trolley proceeds on its present course. You are standing next to the track on which the trolley is traveling, but you are too far away from the workmen to warn them of the impending danger.

Next to you there is a very large stranger who is minding his own business.

It occurs to you that if you pushed this person onto the tracks in front of the trolley, it would stop the trolley and save the five workmen from certain death.

However, this would most certainly kill the stranger.

Is it appropriate for you to push this stranger onto the tracks to save the five workmen?

## Version 2

A runaway trolley is heading down the tracks toward five workmen who will be killed if the trolley proceeds on its present course. You are standing next to the track on which the trolley is traveling, but you are too far away from the workmen to warn them of the impending danger.

Next to you there is a control switch for the tracks that can reroute the trolley.

You could divert the trolley onto another track and spare the five workmen from certain death.

However, there is another workman on the new track that will certainly die if you divert the trolley.

Block15. Is it appropriate for you to divert the trolley and kill the lone workman in order to save the five workmen?

#### Version 1

Now we are going to give you the chance to win \$10.

Here's how it works:

You have an even numbered participant ID.

Participants in even numbered sessions are assigned to be DECIDERS.

As a DECIDER, you are automatically given 10 raffle tickets for the prize. Each ticket is equal to one entry into the raffle. The 10 tickets are yours to keep. However, the participant after you (with the odd numbered participant ID) will be a RECEIVER. This means that the next participant will not have any raffle tickets to start with, but will get any tickets that you decide to transfer to him or her. Thus, it is up to you to determine how to divide up the number of raffle tickets you and the next participant will receive.
